Welcome to the Research Data Management Service Group's
February Newsletter
Comprehensive Data Management Planning & Services

The Research Data Management Service Group (RDMSG) is a collaborative, campus-wide organization that assists with data management and sharing plans, applying best practices for managing data, and finding data management services at any stage of the research process.

Spotlight: International Love Data Week

The Research Data Management Service Group is passionate about research data. What better week to show this than during the week of Valentine's Day (February 13-17), dubbed *International Love Data Week (#LoveData23)*? During this week we offer workshops and networking opportunities focused on data access, analysis, discovery, management, sharing, and preservation. In addition to workshops, RDMSG Consultants will be tabling at different campus locations throughout the week, distributing data swag and information as we go. Please come see us and chat about data. The theme this year is **Data: Agent of Change**, so share an example of how you or your community uses data to bring about changes that matter for an opportunity to win your own mug or "I ❤ data" bag.

Webinars | Conferences | Trainings

At Cornell:
Center for Technology Licensing IP Series #3: Software and Copyright
February 9th | 12pm
Join the Center for Technology Licensing (CTL) for an Intellectual Property (IP) Series virtual event to learn about software inventions and the copyright and patent strategies to protect them. Experts from Ryan, Mason & Lewis, LLP will delve into the definitions and practical case studies of legal challenges and infringements. Registration link.

CSCU Workshops
The Cornell Statistical Consulting Unit (CSCU) supports Cornell faculty, staff, and students with study design, data analysis, and the use of statistics in their research. They offer a wide variety of statistical workshops, as well as consultations. Learn more and register for workshops.

CCSS Spring Workshops

Cornell Center for Social Sciences offers a variety of data-related workshops, including (but not limited to!):
- *Coding with R and Python Using Linux: Parallel Computing* | **Feb. 13 | 1:30-3:30 pm**
- *Protect your Future Publications: Reproducibility Through Data Management Plans - Compliance and Security* | **Feb. 20 | 10:30 - 11:30am**
Learn more and register.

Writing a Data Management and Sharing Plan for Grant Applications
Feb. 14 | 12:00-1:00 pm
This workshop will cover the basics of writing a successful data management and sharing plan for federal funding agencies such as the NEH, NSF, NIH, NASA, and others. Attendees will learn about the different requirements funding agencies have for research data and will be introduced to several tools and resources to help meet those obligations.
Learn more and register.

CAC & Weill-Cornell Scientific Computing Training Series
Cornell University's Center for Advanced Computing together with Weill Cornell Medicine's Scientific Computing Unit, ITS, and Clinical and Translational Science Center are pleased to offer a new Scientific Computing Training Series this Spring (March 21-May 2). Training sessions are held via Zoom. They are open to all workforce members and students of Cornell University, WCM, WCM-Q, and Cornell Tech. They are free of charge and there is no need to apply.

Beyond Cornell:
Data Curation Network CURATE(D) Workshop
Feb 16 | 1:00-4:00 pm
In celebration of Love Data Week, join the Data Curation Network on February 16, from 1-4pm Eastern for an interactive online webinar on curating research data using our CURATE(D) workflow. This participatory workshop is open to anyone interested – librarians, curators, researchers, or those just interested in learning more! Learn more and register.

Funder and Publisher News

CCSS Grant programs
The Spring 2023 Cornell Center for Social Sciences (CCSS) Grant program is now accepting applications from PI-eligible Cornell faculty members. Grant types include a collaboration between the Roper Center and CCSS to convert data in difficult-to-use file formats into usable formats. More information on grant types, eligibility, and application. **Apply by February 23.**

In Case You Missed It

Call for Applications: Cornell Summer Graduate Fellowship in Digital Humanities

Taking place over six weeks, June 5 – July 14, 2023, Summer DH, the Summer Graduate Fellowship in Digital Humanities, supports a small interdisciplinary cohort of Cornell graduate students who together investigate approaches to digital scholarship through collaborative workshops, readings, discussion, and co-working on independent projects. The fellowship is a project of the Digital CoLab at Olin Library.
Express interest by March 1, apply by April 1; find [full details](#) here.
Sponsored by Cornell University Library & the Society for the Humanities.

Schedule a Consultation

RDMSG [consultants](#) are available year-round to answer questions and help with data-related problems.
We can meet via Zoom, email, or phone. Send a request to rdmsg-help@cornell.edu to arrange a consultation at a time that works for you.
